

IEX 2016

Synthetic Organic Ion Exchangers and Adsorbents (SOIA)

European Association under the umbrella of Cefic
which gathers together the European producers of ion exchange resins:

**Dow, Finex OY, Lanxess,
Purolite and Resindion**

SOIA is the industry contact point for regulatory matters impacting ion exchange resins, in particular in the food processing and potable water applications.

Key issues include:

- REACH
- Council of Europe (COE) Resolution RESAP (2004)3 on ion exchange and adsorbent resins used in the processing of foodstuffs
- European and national legislations related to food processing and potable water

Resindion Srl: Valentina Scilletta (v.scilletta@resindion.com)

Cefic – The European Chemical Industry Council

The forum and voice of the chemical industry in Europe.

It represents 29,000 large, medium and small chemical companies in Europe, which directly provide 1.2 million jobs and account for 17% of world chemical production. Based in Brussels since its founding in 1972, Cefic interacts every day on behalf of its members with international and EU institutions, non-governmental organisations, the international media, and other stakeholders.
